Background and Introduction to Aboriginal and Torres Strait Content and Perspectives within the Subject/Learning Area of English

“We have now mastered the same language that was once used against us – describing us as barbaric and savage – and we have empowered ourselves to tell our stories, in our styles, for our people.” – Dr Anita Heiss, Wiradjuri Author, Poet, Satirist and Social Commentator

While this guide focuses predominantly on contemporary texts, it is important to acknowledge that storytelling, in many forms, has been an essential element of Aboriginal and Torres Strait Islander cultures for tens of thousands of years, and continues to play an important role in cultural life to this day. The contemporary inclusion of Aboriginal and Torres Strait Islander perspectives and cultural conventions in ‘western’ literary spaces and styles is an extension of longstanding traditions, amplifying a voice that has otherwise had a history, since European colonisation, of being marginalised or excluded.

It is also worth noting that, while the Subject/Learning Area of English is a large and complex teaching area, this resource guide is not exhaustive. The example texts included in this guide have been organised into distinct modal categories of fiction, non-fiction, picture books, graphic novels, and poetry. Each category includes diverse and relevant texts by Aboriginal and Torres Strait Islander authors and creators, as well as non-Indigenous authors whose work provides key links to themes of reconciliation and Aboriginal and Torres Strait Islander histories and cultures more broadly. It is important to recognise the category of Aboriginal and Torres Strait Islander authorship extends beyond writing that is categorised as ‘Indigenous,’ including genres of romance, sci-fi, drama, history, and more. Note that a number of dramatic, musical, and media arts texts, as well as texts in Aboriginal and Torres Strait Islander languages, are further listed in the Narragunnawali resource guides pertaining to each of these separate, even if related, Subject/Learning Areas.

While English is formally listed as Australia’s “official language,” it is important to appreciate that, for tens of thousands of years prior to colonisation, hundreds of Aboriginal and Torres Strait Islander languages have been spoken across Australia, reflecting the rich oral storytelling and knowledge sharing traditions of Aboriginal and Torres Strait Islander peoples across generations. Studies show that there were at least 250 Aboriginal and Torres Strait Islander languages at the time of European arrival. These were distinct languages (not dialects – indeed, the number of dialects is much greater), each with its own extensive vocabulary and complex grammar. This linguistic diversity reflects the diversity of Aboriginal and Torres Strait Islander cultures and identities more generally. Unfortunately, colonisation and past policies of assimilation— including systemic condemnation of First Language(s) use and forced separation of children from their families and speaker communities— have severely affected the practice and continuation of Aboriginal and Torres Strait Islander languages. It is also important to appreciate the resilience of Aboriginal and Torres Strait Islander peoples and languages, and recognise that, across Australia, there are a number of communities actively and effectively working to revive, revitalise and maintain their First Languages. There is also the recognised dialect of English known as Aboriginal English, as well as distinct creole languages such as Kimberley Kriol, which exist alongside other traditional languages, creoles and dialects.

Timeline of Significant Contemporary Events relating to Aboriginal and Torres Strait Islander Content and Perspectives in the Subject/Learning Area of English

This list outlines some of the many notable events within Aboriginal and Torres Strait Islander authorship and the wider modes of the Subject/Learning Area of English. Initial western communications undertaken by Aboriginal and Torres Strait Islander people took the form of letters to people in positions of authority, petitions, reflecting initial activism and opposition to the treatment of Aboriginal and Torres Strait Islander people by the colonisers — something that formed a continuing trope among Aboriginal and Torres Strait Islander authorship. It is important to acknowledge the long-standing history of Aboriginal and Torres Strait Islander people's extensive systems of language and dialects, and other communication techniques such as [welcoming](#) and [acknowledging](#) Country, something that has always been done between Aboriginal nations and that has now been modernised for contemporary contexts. Aboriginal and Torres Strait Islander histories and cultures are tied to Dreaming stories and stories of the Tagai, which continue to inform Aboriginal and Torres Strait Islander life today and reinforce the importance of the oral tradition.

Reflective Questions for English Staff and Students

Some questions for reflection and discussion when studying texts authored by Aboriginal and Torres Strait Islander people, and texts with themes pertaining to Aboriginal and Torres Strait Islander peoples, histories and cultures, or to reconciliation in Australia:

- How have Aboriginal and Torres Strait Islander histories and cultures influenced Australian literature, and what active role do these histories and cultures play today?
- How has Aboriginal and Torres Strait Islander authorship contributed to the field of Australian literature as a whole?
- Why is it important to acknowledge Aboriginal and Torres Strait Islander voices within varying texts?
- What is the relationship between Aboriginal and Torres Strait Islander authorship/storytelling and the Subject/Learning Area of English? How does this relationship simultaneously intersect with wider Subject/Learning Areas such as Music, Drama, Media Arts, Visual Arts and Languages? Why are these relationships important to appreciate?
- How can an author's personal and cultural context contribute meaning to their work? Reciprocally, how can a reader's personal and cultural context contribute to the way in which they interpret, and/or respond to, a literary work?
- Research one or more Aboriginal or Torres Strait Islander authors or poets. How do you think their personal and cultural context, and experiences, inform their authorship? Why is recognising context and perspective an important consideration when looking at texts?
- Engage with a timeline of significant historical events relating to Aboriginal and Torres Strait Islander peoples and cultures, and to reconciliation in Australia. Select a few of the texts listed above and consider when they are written in terms of the wider timeline. Are these historical events reflected or visible in the published work? Why do you think this is an important consideration in exploring the wider context of Aboriginal and Torres Strait Islander authorship? Consider using [this timeline](#) for inspiration, and you may also wish to explore the resources listed in the Narragunnawali History resource guide to support you in responding to this question.
- Analyse the meaning and messaging of the following quote pertaining to the importance of Aboriginal and Torres Strait Islander authorship: *"First Nations people and communities have not only had history denied to us, OUR stories have been both destroyed and misappropriated. I like the comment of the German writer, Bernhard Schlink, that those who have their history denied to them, are entitled to the dignity of telling and controlling their own narrative"* – [Tony Birch Interview](#).
- How can embedding Aboriginal and Torres Strait Islander content and perspectives in the Subject/Learning Area of English help to promote reconciliation?
